Your current address :

Your phone number :

ABOUT

Put some general information about your pet here, age, behavior, history (from rescue, owned since kitten etc) and indoor/outdoor status.

You can write this from your or the cat's perspective, which is sometimes more fun! – for example :

"I like sleeping in the sink, even more so when my parents want to brush their teeth before bed. In my house the rule is first come, first served and I always come first!"

Include some reassuring factual info, litter tray trained, uses scratching post, reiterate flea & worm treatment.

PERSONALITY

Nicknames, funny traits, food foibles, favourite toy(s) – use this section to make your cat human (feline!) to the landlord.

COMMENTS

Add any other additional information here that a potential landlord may find useful – vet registered, who looks after them when you're away etc
